Professional Summary

NLP Engineer with 4+ years of experience specializing in transformer-based models and natural language processing applications. Skilled in BERT, GPT, PyTorch, and AWS for deployment. Passionate about building scalable, production-ready ML systems.

Skills

Python, TensorFlow, PyTorch

Transformers (BERT, GPT-2)

AWS (EC2, S3, Lambda)

NLP, ML, MLOps

Experience

NLP Engineer

Startup AI Labs, Bengaluru, India

June 2019 – Present

Built BERT-based models for text classification, entity recognition

Designed inference pipelines with TensorFlow Serving + AWS Lambda

Improved NLP model accuracy by 30% through hyperparameter tuning

Published 2 papers on context-based embeddings

Education

M.S. in Computer Science, IIT Madras, 2019
